

Making sense of contract awards.

Rummaging through publicly available government contracting data is not the same as being able to quickly navigate, digest, and work through it. DACIS Spend transforms complex federal procurement data into a competitive edge by simplifying access to detailed data on contract awards, spending patterns, industry trends, and key players. The result is helping businesses understand their markets and stay one step ahead of competition.

WHAT

- Visually-driven guided search
- Context-specific reporting
- Encapsulated contract overviews and runtimes
- 70+ distinct searchable data points
- Fully exportable insights and data views

Understand the situational competitive landscape.

With DACIS Spend, you can:

- Access contract amounts, types, funding, and performance locations.
- Monitor competitor activity to see who's winning contracts and where they're succeeding.
- Analyze trends by agency, sector, or contract type, to gain an edge in planning your business strategy.

DACIS Spend streamlines federal procurement data analysis with advanced search tools enabling precise filtering by competitor, agency, evaluation preference, NAICS code, performance location and so much more to help make decisive, data-driven decisions.

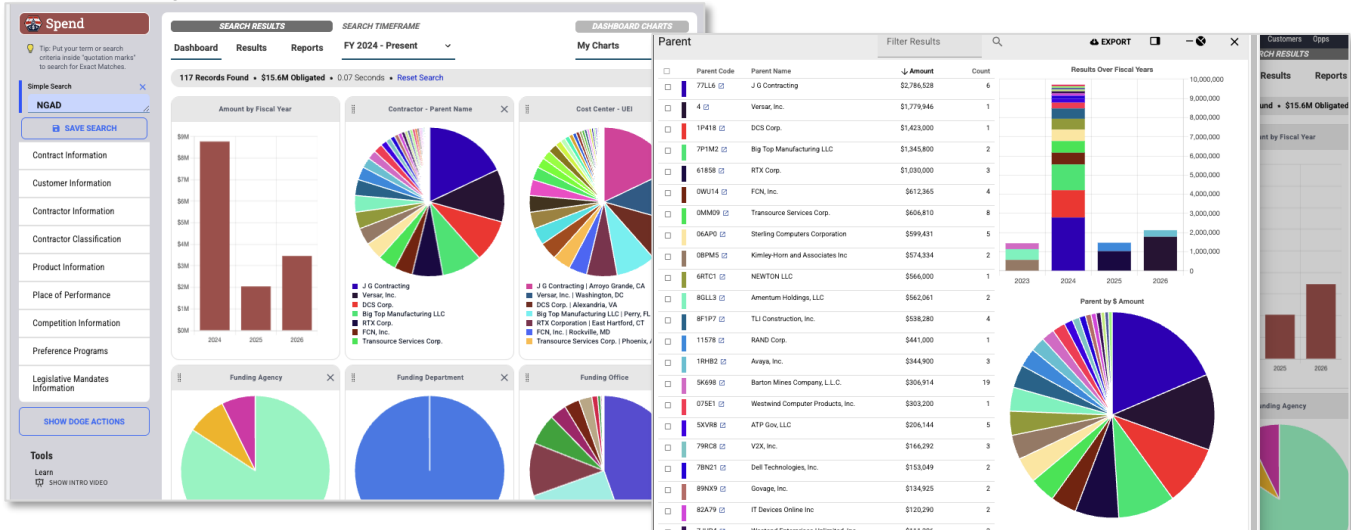

WHY

Spend means less frustration and more situational awareness.

DACIS Spend is about more than just access, it's about winning.

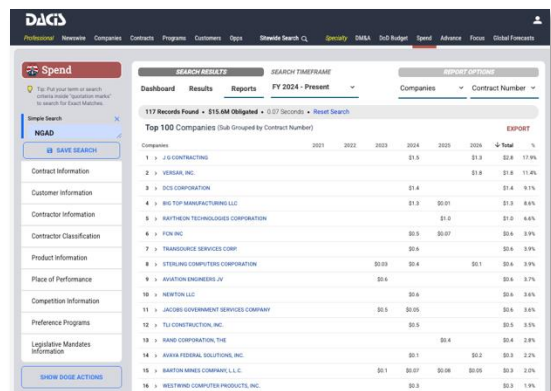

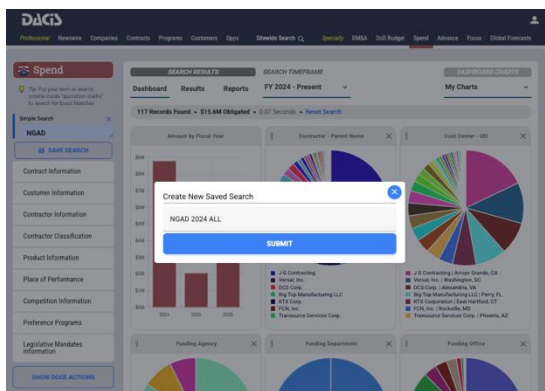

Focused, visually-driven breakdowns...

...lead to extensive performance award information.

DACIS Spend visualization makes it faster and easier to spot trends, isolate customers, exploit weaknesses, identify partners, and discover opportunities. Spend unlocks advantages for company's seeking that decisive edge. Leveraging the power of DACIS, you can effectively and efficiently:

- Know your customer thoroughly
- Understand your competition
- Review M&A candidates
- Identify market shifts
- Find new markets
- Spot legal requirements
- Evaluate Multiple Award IDIQs
- Isolate program requirements
- Locate potential subcontractors

Saved searches clarify focus and reduce time...

...to get to supporting programs that matter most.

Spend is just one reason why industry leaders rely upon DACIS to help set their company's course. Deep, customizable searches that can be shared, exported, and saved is just some of the power awaiting your organization. DACIS: Intelligence that leads.

Start getting more done for a whole lot less.
