

DACIS™

Integrated market intelligence for the Defense, Aerospace & Government Technology industry

DACIS at a glance...

Capabilities

- Insight to news, contracts, customers, programs, M&A, DoD Budget, and C4ISR
- Deep search engine that delivers current and historical data
- Coverage of companies in 70 nations and a half-million U.S. government contractors
- U.S. and international contract coverage that includes subcontractors, competitors, and teaming arrangements
- Comprehensive updates on acquisitions, program changes, organizations, and much more
- Seamless integration between DACIS modules

Benefits

- Improve decision-making with insight into contract funding and qualifying information
- Save time and money by helping improve resource allocation
- Understand the details and trends of contracts and the defense business
- Gain competitive advantages through comprehensive industry and contract views

The industry you know, and all the things you didn't.

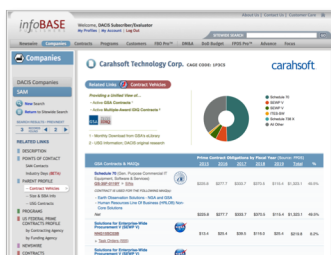

To compete in today's defense, aerospace, and government technology markets you need so much more than a listing of opportunities to chase. You need rich, interlinked intelligence on the companies, contracts, programs, customers, budgets, and M&A that define and are reshaping the competitive landscape. You need it fast, you need it reliable, and most of all, you need it as well-organized as you are. Because you have things to get done.

Every day, thousands of industry professionals rely on the **Defense & Aerospace Competitive Intelligence Service (DACIS)** from InfoBase Publishers for deep market insight and intelligence that helps drive critical decision making. DACIS has unparalleled power, integration, and automation that makes information relevant to how you do business, providing:

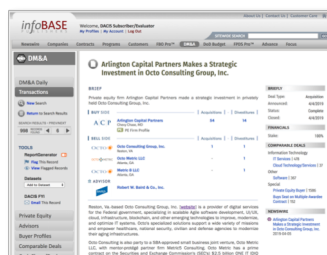

- Comprehensive defense and aerospace market information
- Programs, contracts, companies, customers, and more
- Extensive industry news and developments coverage
- Deep, flexible search engine and data stores

DACIS consists of world-class information packages that manage and present actionable insight from nearly 100 million unique Web pages. DACIS technology has interwoven these information sources to help you quickly and intuitively find what is most important to your business.

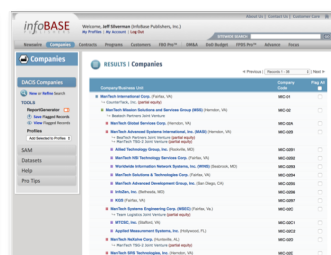

DACIS is...

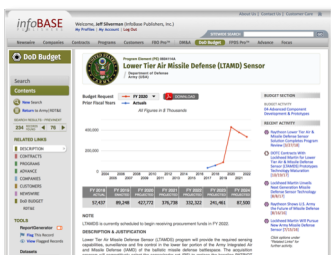

Contract Vehicles

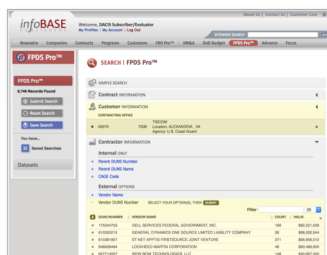

M&A

Company Hierarchies

DoD Budget

FPDS Pro™

And... GSA Contracts • FBO Pro™ • Digitized Industry Days • Email Profiles • Private Equity Firms • Newswire • Customer Hierarchies ...and much more

DACIS: For the pursuit. For the win.

DACIS Professional Edition

DACIS Professional Edition provides comprehensive coverage of the worldwide defense, aerospace, and government marketplace. Six seamlessly integrated modules deliver the market intelligence required for your business development and strategic planning processes:

Newswire

Breaking defense and aerospace industry news and information. Integrated with all modules, Newswire provides context and background that others can't.

Companies

Business unit-specific data such as structure, subsidiaries, JVs, and equity interests on thousands of companies and a half-million U.S. Government contractors.

Programs

Information on the requirements and scope of thousands of major programs with links to suppliers, contract obligations to date, DoD Budget line items, and more.

Contracts

A vast repository of contracts information beyond government databases offering details of work performed, subcontractor involvement, and even losing bidders.

Customers

Information about government agencies, first-tier prime contractors, and commercial entities that buy defense and aerospace products and services.

FBO Pro™

Our highly customized version of the government's FedBizOpps service delivers the industry's largest source of new business leads, plus Profiles, Alerts, and DACIS integration.

DACIS from InfoBASE Publishers helps hundreds of companies everyday and its integrated modules deliver insight and context unmatched in the marketplace. If your business needs more than just information, then DACIS is the market intelligence tool for you need.

Extend the power with Specialty Modules!

DACIS Budget Module

DoD Budget
